THE PEOPLE'S PREDICTION MARKET.

BEING RIGHT PAYS. JUST NOT WHERE YOU ARGUE.

The loudest wins the thread. Nobody pays out.

He built a Chrome extension that put prediction markets on any website. Chrome banned the category days before launch. Oddie is the idea he wanted all along, built where nobody can delete it.

TAG IT. IT'S A MARKET.

No referee. The deadline hits and it pays.

TAG → PICK A SIDE → GET PAID

IT RUNS ITSELF.

No one at oddie
opened this market.
No one closed it.

NOBODY HAS TO PICK THE MARKETS ANY MORE.

4% WHEN IT IS OVER. NOTHING BEFORE.

Half of it goes to whoever opened the market, for as long as it exists.

A pool of \$1,000 pays its opener \$20, and us \$20.

BRING THE ROOM, OWN THE ROOM.

Whoever opens a market is paid to bring people into it. That is the entire growth plan.

EVERY CALL ALREADY HAS A NAME ON IT.

It settles on chain under your handle, right or wrong.
Polymarket can copy the button. It cannot copy your
record.

A platform can close a door. The markets and the
record are on Solana, and the next door is built.

EVERY ARGUMENT IS A MARKET.

30% Creators. Paid to open markets and bring their rooms.

60% Founder. Twelve months, full time, shipping.

10% Infra. Measured, not estimated.

BE RIGHT. BE EARLY. BE ODDIE.
